A MESSAGE FROM THE CHAIRMAN

I am honored to be the Chairman for Heat Exchanger World Americas Conference & Expo 2022. I look forward to this stellar event where attendees can enjoy the networking opportunities, technical demonstrations, and learn of the latest innovations in heat transfer equipment. This event will once again serve as a stage for new technologies, ways of thinking, and cost-saving initiatives recently developed in this diverse industry. My involvement in the Heat Exchanger World Conference & Expo Americas 2022 has already been incredibly rewarding.

Throughout my career, I have led the charge in making sure industry professionals are knowledgeable and aware of bolting guidelines and best practices. As Chair of ASME PCC-1, I am leading the push to create and implement standards for bolted flange joint assemblies. During my career I have been able to assist OEMs, end users, and the industry in providing the training necessary to understand bolting in relation to heat exchangers and other industrial systems. Training and education is the best way to ensure that your heat transfer equipment reaches peak performance – knowledge and understanding of the equipment is vital to extending the life of your assets, troubleshooting issues and improving processes.

Whether it be savings on heat exchanger costs, reliability improvements, maintenance, or networking opportunities that brought you to Heat Exchanger World, I am confident that there is something for every professional from hands on demonstrations, technical presentations, panel discussions and more. I look forward to seeing you all there!

Scott Hamilton, *Founder & CEO – Hex Technology*

A MESSAGE FROM THE VICE CHAIRMAN

I am looking forward to being the Vice Chairman of the Heat Exchanger World Americas Conference & Expo 2022. This is a wonderful event that gives the heat transfer community an opportunity to come together and accomplish new industry goals by sharing the latest inventions and practical solutions, as well as cost, time, and environmental saving opportunities available on the market.

The United States (U.S.) is currently the world's leading producer of both oil and natural gas, with Houston, TX being the Energy Capital of the world. To host the Heat Exchanger World Americas 2022 Conference in Pasadena, will be an excellent networking experience. The conference will shed light on today's latest findings and will give industry professionals a chance to share experiences in heat transfer equipment design, manufacturing, maintenance, safety, and efficiency for all end users, oil and gas refineries and chemical plants, EPC companies, fabricators, vendors, and manufacturers.

As our world faces rapid global warming and increased greenhouse gases (GHG) due to combustion of fossil fuels, the heat exchanger and heat transfer sectors must learn to adapt. Sustainability, Carbon Capture technology and new regulations in oil and gas production will help minimize GHG emissions, while provide the demand for clean energies such as biofuel, liquefied natural gas (LNG), and renewable energy, all of which, are huge markets for heat transfer equipment. New inventions and studies to increase the efficiency of heat transfer equipment will play a big role in achieving a low carbon industry.

As we look to meet this November, we invite you to join us at the Heat Exchanger World Americas 2022 Conference with your ideas and topics focused on design, performance, and efficiency in the oil and gas, and renewable and clean energy industries. I am looking forward to a fantastic conference and would like to take this opportunity to thank our event sponsors, event organizers KCI Publishing, and the Steering Committee for providing the innovation and enthusiasm to build a great event program.

Naomi Jabbari, P.E., *Heat Transfer Engineer – S&B ENGINEERS AND CONSTRUCTORS*

STEERING COMMITTEE

Bal Sareen, *President – Brask, Inc.*

Buddy Tucker, *Vice President of Sales & Marketing – Ohmstede Industrial Services*

Charles Bearden, *Sales Manager – Dunn Heat Exchangers*

Chris Grice, *VP of Field Services – Ward Vessel & Exchanger*

Cuong Nguyen, *Heat Transfer Technical Director I – Fluor*

Dan DeVine, *Piping, Valve, and Pressure Vessel Engineer – Corteva AgriScience/Midland Engineering, Ltd.*

Davi Correia, *Mechanical Engineer, Subject Matter Expert & Consultant*

Dinesh Bakshi, *Corporate Business Development Manager – Brask, Inc.*

Fred Schweighardt, *National Projects Leader – Airgas, an Air Liquide company*

Gilbert Alonzo, *Consultant*

Heather Mroz, *Technical Development Manager Heat Transfer – NobelClad*

Himanshu Patel, *Senior Process Engineer – Bechtel Oil, Gas and Chemical*

Ingrid Cooper, *Business Development Manager and Technical Sales – TEX-FIN, Inc.*

Jan Contreras, *Manager of Sales – Logan Industries*

Joel Baulch, *Director - Engineering and Technical Services – Teadit North America*

Jonathan Pascoe, *President - Americas – Valtherus*

Keith Frye, *Director of Business Development – Cust-O-Fab*

Kyle Dunn, *Business Owner and Compliance Manager – Dunn Heat Exchangers*

Louis Gonzalez, *Marketing and Communications Manager – Flexitallic Group*

Mike Nemeth, *Chief Development Officer/Principal – Elliott Tool Technologies Ltd.*

Mike Prevost, *Vice President - Specialty Services – Ohmstede Industrial Services*

Nareesh Shah, *Technical Director – Worley*

Noel Thomas, *Heat Transfer Engineer – Bechtel Oil, Gas and Chemical*

Paul Miller, *Lead Heat Transfer Engineer – Technip Energies*

Rachel Lanczynski, *Vessel Engineering Global Competency Leader – Corteva*

BRINGING TOGETHER THE HEAT EXCHANGER COMMUNITY THIS NOVEMBER!

Be part of the Heat Exchanger World Americas Conference & Expo to take place on November 16th & 17th, 2022 at the Pasadena Convention Center in Pasadena, TX. The dynamic and interactive event will give attendees the opportunity to network with the leading minds driving ahead innovation and excellence in the field of heat transfer equipment. Featuring an exhibition and a technical conference, the event will have something to offer for everyone, including manufacturers, fabricators, service providers, EPCs, and end users.

The Heat Exchanger World Americas Conference Chairman, Vice Chairman and Steering Committee invite presentations to be made at the event on a wide variety of topics related to heat exchangers and heat transfer equipment use, maintenance, repair, design and more.

Experts from all areas of the industry — including end users, EPCs, material experts, manufacturers, service providers and fabricators — are encouraged to submit an abstract for a technical presentation or discussion-based workshop to the Steering Committee for review.

MAKE A TECHNICAL PRESENTATION OR PARTICIPATE IN A DISCUSSION-BASED SESSION

Heat transfer experts are invited to submit an abstract for a detailed PowerPoint presentation, discussion-based workshop proposal or technology demonstration. If you would like to make a presentation during the conference, please submit a 250-500 word abstract outlining the topic and material to Conference Coordinator, **Sarah Bradley (s.bradley@kci-world.com)**, to be reviewed by the Steering Committee.

ABSTRACT SUBMISSION GUIDELINES

- 250 to 500 words
- Include a relevant title
- Outline presentation topic, scope of discussion & relevant keywords
- Must be technical in nature; commercial content will not be accepted
- Please include your name, job title, company, and contact details
- Please email you abstract to Conference Coordinator **Sarah Bradley (s.bradley@kci-world.com)** by April 15th, 2022.

POTENTIAL ABSTRACT TOPICS

- Testing & Inspections
- Cleaning Methods & Maintenance
- Fabrication
- Corrosion
- Fouling
- Design & Specifications
- Material Selection
- Safety
- Software
- Heat Transfer Augmentation
- Vibration
- Nondestructive Testing (NDT)
- Life Extension
- Upgrading Existing Assets
- Knowledge Transfer
- Installation & Handling
- Heat Exchanger-Related
- Projects
- Market Trends
- Oil & Gas
- Chemical & Petrochemical
- Biofuels and Renewable & Clean Energy
- Hose asset management
- Value-added distribution & services

16 - 17, NOVEMBER - 2022
PASADENA CONVENTION CENTER
PASADENA - TEXAS, USA

EXHIBIT AT THE HEAT EXCHANGER WORLD AMERICAS 2022 EXPO!

The conference will be complemented by the exhibition, where exhibitors will be on-site to answer questions, provide information and showcase the latest in hose technology. Manufacturers and suppliers will present their latest products and establish relationships for the years ahead. Participants can expect to encounter a high-level of expertise and the opportunity to network in an informal and social atmosphere. The event is designed to initiate the free exchange of ideas, practical information and firsthand experience. Register online to walk the expo floor, it is free!

BOOK YOUR STAND TODAY!

CONTACT US

Exhibition stands provide an Ideal platform to showcase your company's products and people. The price for the exhibition stand includes pipes, drapes setup and a basic stand furniture package, but excludes electricity. Contact Roger Caetano, Expo & Sales Coordinator, to book your stand today!
